

Protection against staining for fabric materials

PRODUCT DESCRIPTION

PureFabric delivers protection for all textiles, rugs, carpets and even leather on all kinds of material such as cotton, velvet, suede and chintz.

- ⇒ easily and quickly applied.
- ⇒ will make cleaning easier.
- ⇒ offers protection lasting up to 5 washes.
- ⇒ will not change the texture, look or alter the non-flammable qualities of your material.
- ⇒ excellent value for money.
- ⇒ Material treated with PureFabric will offset a fabric's ageing and facilitate its care.
- ⇒ can be used indoors and outside.
- ⇒ penetrates material right through to the weft meaning it can protect and proof fabrics, rugs and carpets against water and oil penetration and all kinds of stains.
- ⇒ can be applied to vertical, horizontal, inside and outside materials.
- ⇒ Prevents the penetration of water and oily liquids.
- ⇒ Anti-staining, anti-dirt.
- ⇒ Makes cleaning easier.
- ⇒ 100ml can be added to the rinse compartment of a washing machine to top-up protection for fabric materials.
- ⇒ Non-hazardous and non-toxic.
- ⇒ Invisible once dry.
- ⇒ Ready to use.
- ⇒ Easy to use.
- ⇒ Non-flammable.

White cloth protected with PureFabric. After 24hrs contaminants were applied, left for 30mins and the above photograph taken. Contaminants (L to R): Vinegar, Water, Tea, Lemon Juice

TECHNICAL DATA

- Physical State at 20 °C : Liquid
- Appearance : Colourless
- Odour : Mild
- Boiling point [°C] : 100 °C
- Solubility in water [vol/vol] : Fully soluble

PACKAGING

5L containers

CHEMICAL PROPERTIES

A water based product containing a high performance fluorocarbon.

APPLICATION INSTRUCTIONS

“Always test apply on a small hidden portion of the substrate”

- Try first on an inconspicuous area to test the product’s effect on the material’s colour.
- Apply the product to a surface that is clean, dust-free and dry.
- Use neat, do not dilute.
- Apply as a mist using a low pressure (2 bars) sprayer until the fabric is fully wetted out through to the rear of material. Keep the sprayer at a distance of 30 cm from the surface, using a constant sweeping action.
- The material should not be sprayed to saturation point.
- Leave 24 hours to dry.
- Its effect will best be observed after 1 to 2 days.

COVERAGE RATE

Coverage depends on the porosity of the substrate. The values below are given only as an indication:

- Leather: 20 to 25m²
- Carpets: 15 to 25m²
- Textiles: 15 to 20m²

STORAGE & SHELF LIFE

Keep in a dry place (between 5°C and 30°C).

Storage: 24 months following the production date when kept in the original unopened container.

RECOMMENDATIONS & CURING

- To treat only beforehand cleaned and dried surfaces.
- To obtain the best look and results on application, PureFabric should be shaken before use.
- Do not apply during rain or frost and when surface and air temperature is > 10°C and < 30°C.
- Do not dilute or mix with any other product.

HEALTH & SAFETY

See Material Safety Data Sheet before use.

Important: The content of this documentation is based on our experience of the product. Rocan Products Ltd guarantees the quality of its products, but expressly declines any liability in the event of failure by the user to comply with the recommendations and conditions of use of said products, notably but not exclusively in the event of incorrect application, application by unqualified personnel, use of products not compatible with Rocan’s products or bad weather conditions. For further information, refer to the safety data sheet.
